

Job Safety Quiz Answers & Explanations

Question 1:

Answer: B) Check the walk-around inspection

🔍 Before starting any machine, operators must do a full walk-around to check for leaks, loose parts, tire/track condition, and hazards.

Question 2:

Answer: B) 10 feet away

⚡ OSHA requires equipment to stay at least 10 feet away from powerlines up to 50kV. For higher voltages, the distance increases.

Question 3:

Answer: B) Yellow

⚠️ Yellow is the universal color for caution signs, alerting workers to potential hazards.

Question 4:

Answer: False

🚫 Never jump! Stay inside the cab with your seatbelt fastened. Equipment is designed with rollover protection (ROPS) to keep operators safe.

Question 5:

Answer: A) 1 foot out for every 4 feet of height

🔧 This is the “4-to-1 rule” for ladder safety — ensures stability and prevents tipping.
