

## Operator's Eye Challenge - Answer Key

1. The excavator's bucket teeth count is different
2. The operator cab door is open in one image, closed in the other
3. A safety cone near the tracks is missing
4. The haul truck's dump bed position is slightly raised vs. flat and is missing a hydraulic cylinder
5. A worker's hard hat color has changed
6. The excavator's brand logo is visible in one image but not the other
7. A hydraulic hose along the boom is missing
8. The sky/weather shifts (clear vs. slightly cloudy)
